ELSEVIER

Int. J. Production Economics 52 (1997) 329–330

international journal of
production
economics

Contents Volume 52

Vol. 52, Nos. 1, 2

Foreword
R.W. Grubbström, C.R. Nicolin and C. Wahlbin 1
Opening address on the occasion of the Eighth World Productivity Congress, May 24, 1993
H.M. King Carl 3

Scientifically Oriented Papers
What we really need is TPQM!
E.M. Dar-El 5
Management for clinicians or the case of 'bringing the mountain to Mohammed'
C.J. Eastman and L. Fulop 15
Quality in new service development: Key concepts and a frame of reference
B. Edvardsson 31
A conceptual model for disruption causes: A personnel and organization perspective
J. Ericsson and P. Dahlén 47
The effect of a free market price mechanism on total factor productivity: The case of the agricultural crop industry in Greece
Z. Georganta 55
Productivity and flexibility: Fundamental relations between two major properties and performance measures of the production system
R.W. Grubbström and J. Olhager 73
Simultaneous engineering – correlates of success
W.C. Hauck, A. Bansal P.E. and A.J. Hauck 83
Automatic data capture and it impact on productivity
R.A. Lindau 91
Japanese management practices: Their implication on productivity, employment and income distribution
N. Maruo 105
The role of governments in a market economy: Future strategies for the high-tech industry in America
J.E. Merchant 117
Sources of growth of output and convergence of productivity in major OECD countries
M.I. Nadiri and I.R. Prucha 133
Strategic alliances, trick or treat? The case of Scania
C.-H. Nilsson 147
A study of competitive strategy, organisational innovation and organisational performance among Australian manufacturing companies
S. Yamin, F. Mavondo, A. Gunasekaran and J.C. Sarros 161

Practice Oriented Papers
Increasing productivity in technology management when developing and building complex systems in a global environment
